I'm a passionate Frontend Web Developer focused on building responsive, user-friendly, and visually clean web interfaces. With **1+ year of hands-on experience**, I specialize in translating design concepts into high-quality, functional websites using modern frontend technologies. I have a strong eye for detail and usability, and I continuously work on optimizing performance, improving accessibility, and ensuring cross-browser compatibility to deliver seamless user experiences.

EXPERIENCE

Frontend Web Developer | Zervia Tech Solution

July 2025 – Present

- Developed responsive and user-friendly web applications using **Next.js, React.js, JavaScript, HTML, CSS, and Tailwind CSS**.
- Converted **Figma/UI designs** into responsive and functional web interfaces.
- Built reusable and maintainable **React/Next.js components** for scalable frontend development.
- Implemented modern UI layouts and responsive designs using **Tailwind CSS**.
- Customized and integrated **WordPress themes and plugins** based on project requirements.
- Developed and maintained websites according to client requirements and design specifications.
- Performed frontend **testing, debugging, and cross-browser compatibility** improvements.
- Collaborated with team members to implement new features, content updates, and UI enhancements.

Junior Associate | Ninestar Information Technologies Pvt. Ltd.

April 2024 – February 2025

- Assisted in photo editing and document design tasks.
- Maintained visual quality and brand consistency.
- Supported team members to complete tasks within deadlines.
